

The Tariff Again.

There is a great bother just now about the ruinous effects of the Tariff, and every wild and improbable story of effects is forced into the argument. The half of a fact, coupled with an erroneous conclusion, or a simple fact, shorn of all explanation of causes, is considered fair and honest enough, by some of those who are politically and pecuniarily interested in having the prices of home manufactures raised as high as possible.

MOUNTAIN SENTINEL.

EBENSBURG, PA.

THURSDAY, OCTOBER 4, 1849.

FOR CANAL COMMISSIONER, JOHN A. GAMBLE, Of Lycoming.

DEMOCRATIC COUNTY NOMINATIONS. FOR ASSEMBLY, Dr. Wm. A. SMITH, Of Ebensburg.

FOR SHERIFF, JOHN BRAWLEY, Of Summerhill tp.

FOR CORONER, P. S. MCLOSKEY, Of Washington tp.

FOR TREASURER, JOHN G. GIVEN, Of Ebensburg.

FOR COMMISSIONER, ANTHONY LAMBAUGH, Of Jackson, tp.

FOR EDITOR, WASH. DOUGLASS, Of Allegheny tp.

FOR COMMISSIONER, ANTHONY LAMBAUGH, Of Jackson, tp.

FOR EDITOR, WASH. DOUGLASS, Of Allegheny tp.

Arouse then democrats of Cambria, shake off your lethargy, go to the polls in your strength evince to the world your determination no longer to be represented by a Whig, or to aid in fastening upon yourselves all the evils arising from Whig legislation; but that you are still opposed to the creation of mammoth monopolies, and all kindred measures of Whig policy.

Do Not Forget! That JOHN FENLON whilst in the Legislature last winter voted in favor of the re-charter of several banks, and if again elected would go in to create a batch of new ones, as well as re-charter others whose applications will come before the next Legislature.

Do Not Forget, That JOHN FENLON last winter also voted against the election of Judges by the people, and if re-elected will do so again.

Do Not Forget, That the apportionment of the State for members of the Legislature must be effected next winter, and by voting for JOHN FENLON you give the Whigs a majority, who would then gerrymander the State to suit their own purposes, and probably deprive Cambria county of her separate representation in the House.

Do Not Forget, That the next session of the Legislature will be an important one, and that if you wish to prevent the too great increase of paper money and bank capital in the State; if you are in favor of a sound currency, and desire to see the people elect their own Judges—if you want to have a fair apportionment of the State; go to the polls, oppose the election of JOHN FENLON, and vote for the Democratic candidate Dr. Wm. A. SMITH.

Do Not Forget, That the next session of the Legislature will be an important one, and that if you wish to prevent the too great increase of paper money and bank capital in the State; if you are in favor of a sound currency, and desire to see the people elect their own Judges—if you want to have a fair apportionment of the State; go to the polls, oppose the election of JOHN FENLON, and vote for the Democratic candidate Dr. Wm. A. SMITH.

A. SMITH.

Determination to elect the Democratic candidate to the Legislature. Every vote may be important, and each democrat should turn out as if the result depended upon his vote alone. Let them aid in securing a democratic majority in the House, and remember that in this way only, can they secure a separate representation from Cambria under the new apportionment bill for the next seven years.

It is hardly necessary to allude to the importance of our county having a member to attend to her interests in the Legislature. Her resources are just beginning to be developed, and to attract notice from abroad. The iron, coal, lumber and agricultural products are daily increasing and will be sources of great wealth to Cambria. The population, and improvements of the county are every where extending, and our prosperity may be much promoted by a wise system of Legislation, if we only desire it, and attend to our own interests. Go then again we say to the polls, and vote against JOHN FENLON, and for the Democratic candidate Dr. Wm. A. SMITH.

Democrats Remember! That by electing a Whig to the Legislature from this county last fall, parties were tied in the House, and that upon you may devolve to decide whether the next House of Representatives shall be Whig or Democratic.

Remember that the whigs although apparently quiet are not the less active, but hope to lure you into security, & by a thorough and secret organization throughout the State bring their forces to the polls so as to elect their tickets.

Remember, That whenever you have been defeated in Cambria county, it has been owing to dissensions in your own ranks that if you now wish to succeed, your motto should be "union, conciliation, and concession, everything for the cause, and nothing for men."

Remember, That you have a ticket around which every member of the party can rally, and that the candidates are all eminently qualified to discharge the duties of the several offices to which they have been nominated.

Remember, That it is the duty of every democrat to go to the polls through sunshine or rain, and vote the whole Democratic ticket, if you desire to sustain Democratic principles and measures.

Remember, That the eyes of the Democracy of the whole State are upon you, and that you can easily wipe out the disgrace of last year's defeat, by now giving "a pull, a long pull, and a pull all together," so as to ensure the success of the whole Democratic ticket.

Remember Paoli! This famous watchword, says the Pennsylvaniaian, recalls the terrible surprise of the Americans at Paoli, by the British troops, and the fenish massacre that followed. This surprise took place in Chester county, some twenty miles from Philadelphia, seventy-two years ago. Our political friends must "remember Paoli" in the present campaign. Three years ago, in the election for Canal Commissioner, the Democrats were surprised by their ancient foe; and nearly one year since, they were again overcome by dissensions among themselves.—The same foe is now in the field, doubly vigilant and wary, because he has twice been enabled to defeat the strong party of the Commonwealth, and now feels that his tactics are understood. We must not deceive ourselves by the expectation that he is not at work. If so, such an expectation is false and foolish. These ancient enemies of the Democracy and of the country are eagerly yet silently preparing for the conflict. They hope to overcome us, as the tyrannical Gen. Gaay did the Americans at Paoli. Their anti-war leaders are all on the alert. Johnston has been in Philadelphia—Fuller is now in the west—Stevens is hard at work—and we know that there is a secret and widely extended plan to bring out the Federal voters. In the heavy county of Lancaster, they are calling meetings to arouse their forces. Democrats must wake up during the coming week. But few days remain for us; and we should employ them wisely and well. Organization and activity are everything in such a crisis; and we trust the importance of these great duties are deeply impressed upon the minds of our friends. "Remember Paoli!"

Latest from Santa Fe. More Indian Outrages—News of the Overland Trains. St. Louis, Sept. 29. James Brown, Esq., Government Freight Agent, arrived from Santa Fe on last night, having been twenty days on the route.

The market for dry goods continued dull, but a considerable demand prevailed for groceries.

Two Americans were killed by the Apaches at Los Vegas on the 5th of September. The Indians stole twenty of the government horses; and at the same time, two hundred miles on this side of Santa Fe, forty Anapahoes attacked Mr. Brown and robbed him of everything; on the next day, however, they gave back some mules and left him. Some California emigrants furnished him with provisions.

Col. Alexander, commander of Santa Fe, and Col. Washington, had gone against the Indians. Bent was at Taos. Major Stein had a skirmish with the Indians, and was wounded in the leg.

Bent's Fort was lately burned by the Cheyenne Indians, in the absence of Wm. Bent. Several men, who were in charge, are supposed to have been murdered.—Several California trains met Col. Munroe with two hundred and fifty dragoons and infantry, for Santa Fe, at Walnut Creek. The trains were all getting on well. Goods were plenty. The Indians were every where hostile.

Much political excitement prevailed at Santa Fe, relative to the Convention entrusted with the form of the State Government.

Democrats to the Rescue! CAMBRIA COUNTY MUST BE REDEEMED!!

Are the democracy of Cambria ready for the contest on Tuesday next? Are you prepared to do battle in behalf of your principles, and the success of your party?—Remember on that day the fate of Pennsylvania may be decided, and the democracy of the entire state expect you, as democrats to do your duty. Remember, also, that Cambria county must be redeemed, and in order to do this, it is necessary that every man of you turn out to the polls and deposite your vote in the ballot box. We beseech you, then, to let no consideration, however important, prevent you from turning out to the election.

Your enemies, the whigs, are active. Rest assured that nothing will be left undone on their part that will contribute to their success. Every scheme will be resorted to, every argument used that the cunning minds of political tricksters can invent. Their candidate for Canal Commissioner is now travelling the State and bargaining with all the various factions. He is making all sorts of promises, and pledges himself to do more than is in the power of any man to perform, so eager is he for the spoils of office. It would be suicidal to the best interests of the State and our public works to elect such a man Canal Commissioner. Then turn out, democrats, and vote for JOHN A. GAMBLE, a man who is qualified to make one of the most efficient officers that ever sat in that Board.

His experience as a member of the Legislature, as a contractor on our public works, as a civil engineer and as a man of correct business habits, affords a sufficient guaranty of his ability as a member of the Canal Board.

Your county ticket is worthy of your most cordial support.—They are all democrats against whose political conduct nothing can be said. Dr. Wm. A. SMITH, during his long residence in this county, and his active participation in our political contests, has never been found to waver in his support of regular nominations.—His advocacy of democratic men and measures has always been warm & ardent, & his stern and undeviating course as a democrat ought to be sufficient to rally in his favor every friend of liberal principles in the county. No one will dare deny his qualifications for the office—no one can call in question his political integrity.—Then turn out in all your strength, and give him such a majority as he deserves, and such a support as, from his own political course, he has a right to expect at your hands.

JOHN BRAWLEY is all you could desire in a man and a citizen. In vain may you ransack the county for a man better qualified for the office of Sheriff. He has excellent business habits—a kind and accommodating disposition. It is expected that you will manifest your appreciation of his character, private and political, by giving him a sweeping majority, on Tuesday next. But why allude to the candidates in any other than general terms?—They were selected by your representatives in County Convention with a view to the best interests of the county and your party, and it is believed that you will sustain your representatives by sustaining them.

Turn out to the polls, one and all!—Give the ENTIRE TICKET your warm and enthusiastic support. Prove to the world that we can be successful—that all our family quarrels are happily healed, and that we are again united in the common cause of Democracy. Rally! Rally! From hill and dale come forth in your strength, and democracy will be once more triumphant!

For the Sentinel. John Fenlon's Friendship for the Rights of Laboring Men.

It will be remembered by all who are acquainted with the legislation of last winter in Harrisburg, that a great part of the session was spent in considering private bills, and class legislation, to the exclusion of much important business of general interest to the people. There was at no time any difficulty in wealthy individuals or companies, procuring the postponement of the order of the day for the purpose of passing special laws, and granting privileges to favored classes, because of course such were in possession of the one thing necessary to command the exclusive attention of whig legislators—namely, plenty of money. In addition to such laws, a general manufacturing law was passed, granting corporate privileges to every five men or more, who would associate themselves together in the manufacturing business in this commonwealth, with a capital of at least 20,000 dollars.

Here we see that capitalists of all grades may avail themselves of the advantages of special laws and corporate privileges—all but laboring men, who cannot raise a capital of 20,000 dollars. This leaves a large majority of our citizens, chiefly of the laboring class, entirely beyond the reach of these legal privileges, while they have no guaranty by law that they shall receive even living wages for their labor, being left to the mercy of wealthy capitalists who may make use of their necessities to compel them to labor for nought more than is necessary to support life. This is all in strict accordance with time-honored policy of the Federal party, viz: "Let government take care of the rich, and the rich will take care of the poor."

But men of liberal principles and honest feelings, who reflect on these things, believe that some law could and should be enacted that would guarantee to laborers a proportionate share of the advantages conferred by these privileges.

For this purpose a proposition was presented to John Fenlon, the member in the lower House from this county, in favor of a law that would secure to laborers, who worked for corporate companies, a profit on the value of their labor in proportion to its amount, on the same principle that capitalists command a profit on the value of their money or property invested in business. This would at once obviate the whole difficulty, and be in strict accordance with the most rigid principles of justice; because money or property is the capital of the wealthy man, and labor is the capital of the laborer, and they both are equally entitled to a share in the clean profits of their business, in proportion to their respective amounts.

But how was this measure of even handed justice entertained by Mr. Fenlon? He "laughed outright" and exhibited his scorn for the subject in the most haughty and ludicrous manner—not that he could object to the justice of the measure, for he acknowledged it was right. But he laughed at the preposterous idea, that any man should think that such a policy could meet with success. So far was it beneath the notice of gentlemen whig politicians.

Now he that hath understanding let him count the value of John Fenlon's friendship for the laboring man. Whenever any measure is proposed to grant special privileges to the few at the expense of the many; whenever a swindling bank is to be incorporated; whenever an excitement is to be got up in favor of a (so called) protective policy, to pick the bones of labor and cram the inordinate appetite of avaricious wealth, there we find Mr. Fenlon devotedly enlisted in the cause, and laboring like a tumblebug to roll on the ball! But propose any measure that will do justice to labor, to which, by-the-by, Mr. Fenlon owes every bite of bread that appeases his hunger, and every stitch of clothes that covers his awkward limbs—I say, propose such a measure to John Fenlon, and it is met by a broad ludicrous laugh, and grinned into ridicule.

Now this much must be true. Any laboring man who has discovered the real political character and principles of the man, will surely consent to send almost any body else to Harrisburg in preference to John Fenlon. And any laborer who has thus learned his character, and yet will support him for a seat in our legislative councils, might as well snatch the bread from his own children's mouths and consign them to a life of poverty and destitution.

A LABORER.

From Mexico. The steamer Severn, which arrived at Mobile on the 20th from Vera Cruz, brings \$1,100,000, mostly consigned to England; the remainder is for this city and Mobile.

The late Round Island Expedition had caused much excitement in the city of Mexico. On hearing that it was the intention of the expedition to land on the Island of Lobos, near Tampico, President Herrera addressed a remonstrance to the United States Consul at the capital. The Government commenced making extensive preparations to defend the cities along the coast.

General La Vega collected eight hundred men, and armed a steamer for the purpose of defending the entrance of the river.

It was expected in Tampico that the new Tariff would become a law.

The town of Antigua had been completely inundated by heavy rains. The inhabitants barely escaped with their lives.—Contributions were immediately taken up at Vera Cruz, to relieve the distressed condition of the sufferers, who are in a very destitute condition.

The Bumbling Taylor Administration.

Since the present administration came in power, say the Washington Union, which is but six months ago, the cabinet, with Mr. Clayton at its head, has contrived to pick quarrels, or get into diplomatic squabbles, with England, France, Spain the German Confederation, and the Bashaw of Tunis. What but the most stupid blundering can account for this state of things? And where is all this unfortunate mismanagement to end? We were disposed to laugh at first. But we really begin to think there is danger of a rupture of our peaceful relations, and of war with more than one foreign power. We certainly think, in view of this strange state of things, this embroilment with half the world, in so short a period, that our citizens engaged in commerce should keep a look out for the future. Precautions are certainly necessary, for we know not when a war may break out under the management of the present cabinet. It seems to behave in the conduct of our foreign relations with no more judgment or caution than a mad animal in a china shop.—Where is the "man of peace" which but the other day we had at the head of the administration? Or was it the miserable rant of the new organ? Will the Intelligence answer.

H. H. Robinson, of Cincinnati, writing to the Enquirer of that city from San Francisco, says slavery would starve to death in California, unless simply fed from the storehouses of the States at home.—The ship Shannon, arrived same day, had 15 deaths.
